RE: Tobacco Flavorants Produced by Ozonolysis
of Abienol/PM 1172 Your ref: PM-83-7

Dear George:

Please note the enclosed memorandum of January 18, 1984 from inventors Edwards III and Southwick. They and their superiors conclude that this case, covering a certain aspect of the abienol studies, should be placed on inactive status because results at present are unpromising. You need not pursue it. Thank you for your analysis of November 29, 1983.

Very truly yours,

G. Esler Inskeep
